Students on the Cambridge summer program live in single rooms and study at Christ’s College at the University of Cambridge in England under the direction and instruction of faculty from the College of William and Mary. The courses taught at Christ’s College meet William and Mary degree requirements. Students are required to take two courses from a menu of five classes for a total of six credits.

The City of Cambridge was home to and inspired the work of some of England’s most distinguished writers and scientists, including Newton, Milton, and Darwin. Cambridge has also been described as one of the loveliest cities in Britain. Rich in culture and history, Cambridge offers a wealth of museums, bookstores, restaurants, pubs and theaters, and is located an hour from London by train.
